RESEARCH INTERESTS

Antimicrobial resistance (AMR) surveillance and molecular diagnostics across clinical and environmental reservoirs, with a One Health perspective linking hospital, water, and community transmission pathways. Hands-on experience in pathogen isolation, PCR-based detection, and biofilm assays through FYP thesis research and dual clinical/research internships; seeking a research-based master's in microbiology and infectious disease.

EDUCATION

International Islamic University Islamabad (IIUI)

Islamabad, Pakistan

Bachelor of Science in Biotechnology – CGPA: 3.78/4.00

Feb 2022 – Jan 2026

- Thesis (FYP): *Comparative Surveillance of ESKAPE Pathogens in Hospital Tap Water Systems* – conducted at NUST under the co-supervision of Dr. Fazal Adnan; manuscript currently in preparation for journal submission
- Relevant Coursework: Microbial and Molecular Biotechnology, Industrial Biotechnology, Biochemical Engineering

RESEARCH & LABORATORY EXPERIENCE

Research Intern – FYP Thesis Research

Islamabad, Pakistan

National University of Sciences and Technology (NUST), co-supervised by Dr. Fazal Adnan

Jul – Oct 2025

- Carried out FYP thesis research on comparative surveillance of ESKAPE pathogens in hospital tap water systems, from sample collection through data analysis
- Performed microbial culturing, isolation, and antibiotic susceptibility testing (Kirby–Bauer disk diffusion method)
- Conducted DNA extraction, gel electrophoresis, and PCR under GLP and standard biosafety protocols
- Operated gel documentation system and microplate reader for molecular and microbiological analysis
- Evaluated bacterial biofilm formation through quantitative biofilm assays

Hospital Laboratory Intern

Islamabad, Pakistan

PAEC General Hospital

Jul 2024

- Performed bacterial culturing, biochemical identification, and antibiotic susceptibility testing (AST)
- Conducted VITEK-based microbial identification and DNA/RNA extraction using manual and automated (Zeesan) kits
- Ran COVID-19, Hepatitis B, and Hepatitis C detection via PCR systems under BSL-II safety protocols

TEACHING EXPERIENCE

Science Teacher

Islamabad, Pakistan

Dar-e-Arqam Schools

Apr – Aug 2026

- Taught middle school science curriculum, designing lessons and assessments to translate core biological concepts into foundational scientific literacy.

TECHNICAL SKILLS

Laboratory: Bacterial culturing & isolation, biochemical identification, antibiotic susceptibility testing, biofilm assays, DNA/RNA extraction, PCR, gel electrophoresis, VITEK microbial identification, microscopy, BSL-II practices

Quality & Documentation: Good Laboratory Practices (GLP), Good Manufacturing Practices (GMP), scientific documentation

Computational: R (statistical analysis), SPSS, NCBI, PubMed, BLAST, EndNote, MS Office

Professional: Academic communication, laboratory management, time management, scientific literature review, community building

LEADERSHIP & COMMUNITY ENGAGEMENT

Founder & CEO, Biotech Squad (Feb 2025–Present) – Built a student biotech community to 2,000+ followers; led mentorship programs in scientific literature review and presentation.

Co-Founder & Marketing Lead, BioSkillz (Jul 2025–Present) – Co-founded an educational platform connecting life science students with technical training.

Guest Speaker & Seminar Organizer, DBS IIUI (2024–2026) – Delivered an invited lecture on social entrepreneurship to 60+ students; organized departmental seminars.

CONFERENCES & SYMPOSIA

International Symposium: Natural Products Chemistry – Drug Discovery & Industrial Economy (Oct 2025)

Leadership Summit, Department of Biological Sciences, IIUI (Oct 2025)

INNOVENT 2025 – Research Bench to Market (Presented: Ecozyme – Natural Cleaning Redefined) (Apr 2025)

AWARDS & ACHIEVEMENTS

1st Position – Research Poster Competition, "Interactive Research Display," DBS IIUI (Nov 2024)

Prime Minister Youth Laptop Scheme – selected among top merit students nationwide (2025)

Fauji Foundation Merit-Based Scholarship – top academic standing (2024, 2025)

REFEREE

Dr. Asma Gul, Professor, Department of Biological Sciences (DBS), International Islamic University (IIUI) – gulasma@iiu.edu.pk
